Synopsis

- ▶ The first National Intensive Course for Masters in Rehabilitation Medicine is organized by the Rehabilitation Medicine unit, Department of Orthopaedic and Traumatology, Faculty of Medicine, UKM. In conjunction University Malaya Medical Centre and Malaysian Association of Rehabilitation Physician (MARF).
- ▶ This Intensive Course is a 3-days event which covers several important topics such as Paediatric problems, Acquired Brain Injury, Stroke, Spinal Cord Injuries, Amputee and Diabetic Foot Care. Participants will have a great opportunity to have a greater understanding of the above subjects.
- ▶ We encourage all Master Students in Rehabilitation Medicine to participate in this Intensive Course.
- ▶ The objectives of this Intensive Course are:
 - ▶ To prepare Master Students in Rehabilitation Medicine for upcoming final exam
 - ▶ To expose the students to a mixture of interesting cases and get the opportunities to participate in active discussion through interactive clinical examination and case discussion.
 - ▶ 'To train the students to achieve the ability to respond to the questions in concise manners through hands-on interactive sessions.'
