

PROGRAMME

16TH SEPTEMBER 2017

0800H - 0815H REGISTRATION
0815H - 0830H OPENING
0830H - 0915H INTRODUCTION AND INDICATION AND EXTERNAL FIXATOR
MR. ZAMRI AB RAHMAN
0915H - 1000H ILIZAROV COMPONENTS AND TOOLS
MR. ZAMRI AB RAHMAN
1000H - 1030H TEA BREAK
1030H - 1130H RADIOGRAPHIC IMAGING FOR ILIZAROV EXTERNAL FIXATOR
MR. AHMAD ZUBAIR ANIS AHMAD
1130H - 1215H REHABILITATION FOR PATIENT ON ILIZAROV EXTERNAL FIXATOR
PUAN SALINA ISMAIL
1215H - 1300H HOW TO REMOVE & HOW TO DO DRESSING FOR IEF
DR. MUHAMMAD AFIQ MAT ALI
1300H - 1400H LUNCH
1400H - 1600H WORKSHOP
1600H - 1630H Q&A SESSION
1630H - 1700H CLOSING, TEA AND ADJOURN

BASIC ILIZAROV COURSE

FOR PARAMEDICS

16TH SEPTEMBER 2017
HOSPITAL SHAH ALAM, SELANGOR

COURSE DESCRIPTION

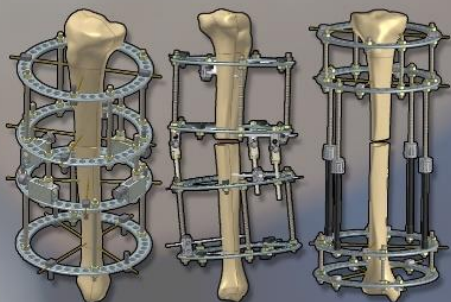

Course Fee for Paramedics (Grade 29 and above)

RM 50.00

A percentage of orthopaedic cases require specific modes of intervention to address the complex nature of a pathology, including severe fracture comminution, bone gaps, non-union, malunion, limb length discrepancy, congenital or acquired deformity. These complex pathologies are sometimes treated with internal or external fixation, and an increasingly popular surgical choice is the Ilizarov External Fixator.

The Basic Ilizarov Course is designed to provide a comprehensive learning experience for supporting staff who are involved in the management of complex orthopaedic cases caused by different underlying problems.

This is the first time Hospital Shah Alam will be hosting the course and have invited experienced surgeons to provide comprehensive input on the management of many types of orthopaedic cases requiring complex intervention techniques. We hope that those interested will register early because we have to limit the number of participants to ensure adequate hands-on experience and effective transfer of knowledge.

LECTURES & DRY WORKSHOPS

Five essential lectures on the basics of Ilizarov External Fixation will be showcased augmented with interactive online multiple choice questions and surveys.

Hands-on workshop will be provided for participants to better understand fixation methods of wires and half pins and ring external fixators. These workshops are designed to prime all participants to become significantly more competent in the support of surgeons performing complex cases.

OBJECTIVES

- to help participants better understand the concepts of Ilizarov External Fixation
- to help illustrate the techniques required in performing Ilizarov External Fixation
- to enhance the understanding of equipment, radiographic imaging, rehabilitation and care of patients who require Ilizarov External Fixation surgeries

REGISTRATION

I would like to register for the following BASIC ILIZAROV COURSE 2017. Enclosed is the registration form and cheque made payable to KELAB SUKAN KEBAJIKAN DAN REKREASI HOSPITAL SHAH ALAM (Bank Islam 12177010004040).
